

### ***Benefit of the Month Program***

Thank you for your interest in having Larkspur and Avondale donate to your organization. We are honored you have chosen us as potential sponsors. We get frequent requests, and in order to contribute to as many as possible, we have developed our ***Benefit of the Month*** program.

Our ***Benefit of the Month*** receives one dollar for every bottle of water sold (25% of all bottled water sales) in both restaurants for the designated month. This includes breakfast, lunch, and dinner at Avondale and lunch and dinner at Larkspur.

In 2007, Larkspur recognized the impact its bottled water sales were having on the environment. Imported waters were transported thousands of miles taxing energy and fuel commodities. Hundreds of disposable bottles were going to recycling centers and local landfills.

After a year long search for a better way, we now offer our restaurants' patrons house-filtered waters served in distinctive, logo-engraved, glass bottles that we refill and reuse daily. We are proud to have developed a program that works to reduce our carbon footprint on both a local and global level. This program invites sales, which we share with our ***Benefit of the Month***, further demonstrating our commitment to the local community.

We reserve space on our menu to tell all our guests about the ***Benefit of the Month***. This mention promotes your cause to all our restaurants' patrons, creating greater awareness and thereby resulting in a larger contribution. You can directly affect the amount of the contribution by encouraging your supporters to dine at our restaurants that month.

We give priority to local non-profit organizations. Please print and complete the application attached and return via fax to:

fax: 970.754.8052

If we are able to sponsor your organization as ***Benefit of the Month***, we will contact you. No phone inquiries please.

**Organization name:**
